Angels Fulfill Promise

VISITING ANGELS OF DELRAY BEACH RECEIVES STATE OF FLORIDA NURSE REGISTRY LICENSE

Going the extra mile isn't all that unusual for Visiting Angels. Changing their license for the benefit of their patients, however, goes far beyond that proverbial extra mile.

Visiting Angels Home Care for Senior's opened their doors 6 years ago as a Homemaker and Companion Service. The philosophy was totally patient driven, even encouraging patients to participate in the selection of their own caregiver. The process worked so well, and the relationships became so strong that patients had no need to seek out other services. Many of their first patients are still with them after all these years.

Unfortunately, the aging process eventually created the need for more care than Visiting Angels was able to perform under the Homemaker and Companion certification. Upgrading their license to a Nursing Registry expanded the scope of services that they were able to offer and therefore enabled them to continue caring for those who needed the extra care and be

able retain the patients who had been promised that Visiting Angels would always be there for them. Now, Visiting Angels can continue on their mission!

If we make a promise....we keep it!
